Correction to: *Communications Earth & Environment* <https://doi.org/10.1038/s43247-024-01883-w>, published online 16 Jan 2025

“In the version of the article initially published, in the third paragraph of the “Description of the study areas” subsection of the Methods, the sentence “Tiksi, nestled in the Lena River delta, presently accommodates approximately 4600 inhabitants, consisting of Sakha residents, Indigenous groups such as Evenki and Eveny, and Russian settlers” was worded incorrectly and should have read “Tiksi, nestled in the Lena River delta, presently accommodates approximately 4600 inhabitants, consisting of Indigenous groups (such as the Sakha, Evenki and Eveny) and Russian settlers”. The text has been amended in the HTML and PDF versions of the article.
