SPP1158 – update 2019

Amelie Driemel, Stefanie Schumacher, Dana Ransby
Bremen, 26.09.2019
PANGAEA is an open access Data Library and is the designated database for SPP1158 (data + metadata!)

- Your data are stored georeferenced in space and time
- Your datasets receive a citable and permanent DOI
- Your datasets can be found via the internet and can be downloaded from the PANGAEA web page (moratorium possible!)

PANGAEA Data Curator
Oops, ok will upload a new version.

Great, looks good, please keep moratorium until...

I uploaded your data, please proof-read at ...

Did I do it right??

Looks good, but units are missing ;)

The new version looks very good!

Radiocarbon dating was performed on different mumiyo deposits from western and central Dronning Maud Land and the Southern Prince Charles Mountains (East Antarctica). Top and basal ages were obtained to identify the temporal ranges of the deposits. Some deposits were analyzed in more detail by measuring samples from different depths along vertical profiles.

**Citation:**

**Abstract:**

**Project(s):**

**Coverage:**

- Median Latitude: -71.92611
- Median Longitude: 16.369911
- South-bound Latitude: -74.553300
- West-bound Longitude: -11.273300
- North-bound Latitude: 64.650900
- East-bound Longitude: 181.936000
Your dataset in PANGAEA is **in review and access restricted** until you are completely happy with it!

(also possible until final publication of your manuscript)
Thanks!
